Located in a faux glass island, *Vinesse*, the elegant all day dining restaurant, serves refined international cuisine throughout the day. The attached bar serves exquisitely crafted cocktails and a wide range of spirits and single malts.

Resting on natural wooden decks, the Mediterranean beachfront restaurant, Aquario, recently underwent a renovation and serves responsibly sourced seafood from local and international waters, which is cooked using traditional techniques. At the attached bar, guests can sip on an aperitif or a nightcap and enjoy toe-tapping music.

The resort offers eclectic healthy snacks at its poolside restaurant and guests can also enjoy 24-hour in-room dining.

Dine indoors or al fresco beside uninterrupted ocean views.

All menus are healthy and balanced. Dishes are made using locally sourced produce which is prepared by using authentic methods from around the world.

The attached bar has an aura of the pre-prohibition, Golden Age of cocktails. The menu includes classic cocktails, international fine wines, and premium spirits. The bar also has a wide choice of single malts and Cuban cigars.

Aquario

The speciality seafood restaurant by the beach is furnished with wall lined sofas, wooden tables, and wicker chairs. The menu features responsibly sourced seafood cuisine inspired by the South of France and Italy that is prepared using specialist methods to retain authentic flavours and nutrition.

To celebrate the resort's five-year anniversary, *Aquario*, has undergone an extensive refurbishment to enhance each guest's dining experience. The newly designed entrance feels like entering a beautiful glass structure. Inside the restaurant, an intricate Islamic Mashrabiya ceiling and handwoven rugs lend warmth and texture. The new bar design is contemporary, comfortable, and sophisticated, and provides guests with space to enjoy picturesque views of the beach in a comfortable and luxurious setting. Aquario has a relaxed feel during the day and comes alive at night with resident DJs and singers performing against a backdrop of seemingly floating solar lanterns and the Arabian Sea.
